DETAILED ACTION

REASONS FOR ALLOWANCE

1. This is an Examiner 's Statement of Reasons for Allowance. The prior art of record (Edwards et al US 2001/0037319 A1, and Dettinger Richard et al JP2003323324 A) do not teach or suggest:

As per claims 1, 72, 73, "at least one data repository connected to the at least one gateway computer and to the at least one data recipient computer via the first network, wherein the at least one data repository further comprises data repository software, and wherein the client software further comprises instructions for forwarding a data recipient's offer to the at least one data repository via the gateway computer, the second network, and the NCD software and the data repository software further comprises instructions for gathering information to complete a transaction".

As per claims 51, 111 invoking client software on the at least one accessor computer in response to the accessee's offer, and wherein invoking the client software further comprises: connecting the at least one accessee computer to the at least one information server, invoking the information server software, forwarding the accessor's offer to the least one information server, and gathering the purchasing information by the information server to complete a purchasing transaction".

Dettinder et al discloses a system, a method, and an article of manufacture for independently providing access to data from a specific shape physically expressing the data.

Edwards et al discloses a content brokering system that assists the negotiations between a buyer and seller through a financial function. The seller sends an offer to the content brokering system addressed to the buyer as a private message that is forwarded by the content brokering system.
